LANDSCAPER SL BODY
MARAUDER SL DUMP BODY
MARAUDER DUMP BODY

MADE IN THE USA

What you want when there's hard work to do.

When your job demands heavy-duty hauling and dumping applications, it pays to have trucks that work in the most demanding environments. Whether you're delivering plants and gravel for a municipal project or hauling away debris from an industrial demolition site, we have the truck body that works long and hard for you.

LANDSCAPER SL BODY

It's ideal for transporting loose, bulk or skidded material that's lighter in weight but still requires room. Constructed for long-lasting durability you can count on to work hard for you job after job. Available in 9' and 12' models.

MARAUDER SL DUMP BODY

An economical body available in 2/4 yard capacity. Pack it full of lighter weight loose or bulk material to get the job done. Features an electric-hydraulic double-acting hoist with the ability to lift 8-12 tons. Choose between 9' or 11' models.

MARAUDER DUMP BODY

Our standard-duty Marauder Dump Body has all the features you need in 3/4 & 5 yard capacity. The Marauder body is engineered with a 10-gauge hot-rolled, high-strength steel interlaced understructure, dual-sidewall construction for exceptional body strength and reliability, and the performance of Class C- and D-rated hoists that can lift 8-12 tons. The Marauder Dump Body is available in 9' and 11' lengths, with the 9' having a drop-side dump option. Additional features such as tailgate latch pins and shock-mounted rear lights provide extra safety.

WE'RE HERE TO HELP.

STANDARD FEATURES LANDSCAPER SL BODY

STANDARD FEATURES LANDSCAPER SL BODY

1 CAB GUARD

10-gauge hot-rolled steel with 7-gauge sideplates. All bodies include a cab guard sized for its chassis that is permanently welded to protect the chassis and can be used to haul a properly secured wheelbarrow.

2 SUBFRAME-MOUNTED HOIST

Universal understructure is wired and ready to go to work.

3 SIDE SWING DOOR

Side door is 52" wide and swings 180°.

4 REAR BARN DOORS

Rear swing-out barn doors swing 270° for easy unloading and include a cam latch assembly.

5 REAR DOOR LATCH

The rear door latch, with holdbacks mounted on the side of the body, holds the rear door open for bed area access.

6 TENSION CLEATS

The tarp tie-down tension cleats are positioned on the sidewall so they don't interfere with the door openings.

POPULAR OPTIONS LANDSCAPER SL BODY

SLIDE AWAY ACCESS LADDER

Underbody self-storing ladder for easy tarp control or cab guard access.

FOLD AWAY ACCESS STEP

Retractable step for slide out convenience and storage. Located under the side door opening for easy curbside access.

UNDERBODY TOOLBOXES

Additional underbody toolboxes are available in aluminum or steel in sizes from 24" to 60". Can be installed on curbside or roadside.

TARP COVER

A tarp cover is available to meet your needs.

HITCH

With adjustable mounting heights, ICC underride, safety chain D-rings and choice of 2-5/16" ball/pintle combo, 2" ball/pintle combo or 2" receiver tube using Grade 8 hardware.

STANDARD FEATURES MARAUDER SL DUMP BODY

STANDARD FEATURES MARAUDER SL DUMP BODY

1 DURABLE UNDERSTRUCTURE

Durable understructure is built from 7-gauge hot-rolled steel and 3-3/4" long sills. The understructure provides lower body-mounted height for industry-leading strength and durability. Used to deliver lighter weight total package for contractors who cube out before they weigh out.

2 HYDRAULIC POWER UNIT

Double-acting (power-up/power-down) 12-volt electric-hydraulic power unit for easy operation.

3 FORWARD TAILGATE RELEASE

Release the tailgate near the front of the cab for a controlled spread of debris. The tailgate releases at the bottom and pivots at the top.

4 REAR CORNER POSTS

"Banjo eye" chain holders and tarp tension bar receivers.

5 TAILGATE

Full-width rear apron with double-acting tailgate that releases at the top and pivots at the bottom. Includes an easy open, single lever, fast-action drop-down tailgate release lever.

6 STEEL FLOOR PLATE

Two-piece HRA1011 rugged steel floor plate with angled sidewalls to floor eliminates bridging of material.

7 TAILGATE LATCH PINS

Heavy-duty tailgate latch pins and hinges with grease fittings for lubricating.

8 MODULAR BULKHEAD & CAB GUARD

The modular, full-width bulkhead and cab guard allows for convenient and cost-effective ship-thru on most chassis.

STANDARD FEATURES MARAUDER DUMP BODY

STANDARD FEATURES MARAUDER DUMP BODY

1 DURABLE UNDERSTRUCTURE

Durable understructure consists of 7-gauge formed-channel long sills and 3" structural crossmembers. Interlaced understructure provides lower body-mounted height for industry-leading strength and durability.

2 HYDRAULIC POWER UNIT

Double-acting (power-up/power-down) 12-volt electric-hydraulic power unit for easy operation.

3 FORWARD TAILGATE RELEASE

Release the tailgate near the front of the cab for a controlled spread of debris.

4 FRONT CORNER POST

Full-height front corner post provides additional structural strength to the body.

5 REAR CORNER POSTS

Full-depth rear corner posts with laser-cut hardware, "banjo eye" chain holders and tarp tension bar receivers.

6 TOP RAIL

The top rail is fully boxed for ultimate strength and angled to shed dirt and debris.

7 SHOCK-MOUNTED TAIL LAMPS

Recessed shock-mounted incandescent reverse lights installed in rear apron in addition to license plate bracket and shock-mounted, recessed LED stop and turn lights, taillights and marker lights in rear post.

8 STEEL FLOOR PLATE

Two-piece HRA1011 rugged steel floor plate with angled sidewalls to floor eliminates bridging of material.

9 EXTRA-REINFORCED TAILGATE

Full-width rear apron with double-acting tailgate and easy open, single lever, fast-action drop-down tailgate release. Made of 10-gauge steel double-wall construction with upper and lower formed box sections. Dual vertical reinforcements on a 10-gauge tailgate with formed box sections, top and bottom, provide extra stability.

10 TAILGATE LATCH PINS

Heavy-duty tailgate latch pins and hinges with grease fittings for lubricating.

POPULAR OPTIONS MARAUDER SL DUMP & MARAUDER DUMP BODIES

UNDERBODY TOOLBOXES

Additional underbody toolboxes are available in aluminum or steel in sizes from 24" to 60". Can be installed on curbside or roadside.

BACKUP ALARM

Alarm provides additional safety on the jobsite.

COAL CHUTE DOOR

To meter out your load more slowly, add a coal chute door to the rear tailgate. It opens guillotine-style to give you control of your dumping speed. (Select Marauder models only)

HITCH

1/2" steel drop plate with adjustable mounting heights, ICC underride, safety chain D-rings and choice of 2-5/16" ball/pintle combo, 2" ball/pintle combo or 2" receiver tube using Grade 8 hardware.

SIDEBOARD GUSSETS

When you need to haul larger volumes of dry material like brush, add optional bolt-on gussets that let you add larger sideboards and expand your hauling capacity.

REV-PAC

Vertical compartments provide additional storage for secure and convenient access to tools and supplies.

TARP COVER

A tarp cover is available to help secure your load.
